PROFILE

As an MCA graduate with a keen interest in full-stack web development, I have cultivated a solid skill set in HTML, CSS, and JavaScript. My expertise extends to frameworks such as React, Node.js, and MongoDB, and I am also proficient in C++. I excel at creating user-centric websites that are both dynamic and responsive. Alongside my technical skills, I possess strong soft skills including effective communication, team leadership, and collaborative work. These attributes enable me to work seamlessly with teams and drive projects to successful completion

SKILLS

FrontEnd

JavaScript, HTML5, CSS

Frameworks

React, Node.js, MongoDB, Express

Operating System

Linux, Windows

PROJECTS

CareCrew

CareCrew is a comprehensive platform designed to bridge the gap between pet owners and service providers. It allows users to easily connect with professionals offering a variety of pet services, including:

- Pet grooming
- Daycare services for pets
- Training and behavioral support
- And more tailored pet care services

Built using the MERN stack (MongoDB, Express.js, React, Node.js), CareCrew ensures a robust and scalable platform for both pet owners and service providers.
